Our mission is *healing*

Orthopedic Surgeon Needed!

Currently our staff includes three orthopedic surgeons and a sports medicine physician, who function as a true "team." We are seeking a colleague with just the right "fit." With strong support in the community, the Ortho Center's fine reputation is spreading throughout the region. Physical therapy services are located at the Center, including a therapy pool. Our ideal candidate will specialize in foot and ankle, or have the desire for training in foot and ankle, to complement the services presently offered.

Who We Are

GCH provides outpatient services in radiology, laboratory, cardiology, pulmonary, oncology, surgery, audiology and speech, physical and occupational therapies. Visiting specialists see patients in the hospital's Specialty Center. In addition, GCH provides inpatient acute medical/surgical care, intensive care, obstetrical care, rehabilitation care, and a certified sleep center. Orthopedic services offer a strong magnet to a satellite orthopedic center, as does the WorkWell (occupational medicine) Program to the main facility. The hospital employs primary and specialty care physicians with offices in Galion and Crestline, in addition to about 500 employees.

About Galion, Ohio

- Located in Crawford County (pop. approx. 45,000) Galion's attractive small town atmosphere is a comfortable drive to four major Ohio cities: Toledo, Cleveland, Columbus, and Mansfield
- 300 acres of city parks and reservoirs with fishing, tennis courts, and more
- Four golf courses within 7 miles, 30 minutes to Snow Trails skiing
- Approximately 20 minute drive to Mansfield, Ohio and North Central State College and the Mansfield branch of The Ohio State University
